

Grazie 1001 Stand Mixer

This stand mixer has been carefully created to make baking an absolute pleasure. Our expert manufacturers only used premium components such as pure copper motors, full die-cast aluminum housing, and stainless steel to ensure that your device lasts for years to come.

You'll love the convenience provided by our touchscreen LED display control system. Plus, the easy-tilt head offers a seamless action, and the anti-slip feet give it maximum stability. By choosing full metal gears, a worm spiral structure, and a planetary mixing action, our designers produced a powerful dough mixer machine with an extremely low noise level.

So get yours today to start baking the hassle-free way!

Technical Specifications
